

REGULATION V – AGRICULTURAL OPERATIONS

RULE 500. DEFINITION

Adopted: 09/05/74

"Orchard Heater" means any article, machine, equipment or other contrivance burning any type of fuel, or a solid fuel block composed of petroleum coke burned by an open flame, used or capable of being used for the purpose of giving protection from frost damage. For the purpose of this Regulation, "Orchard Heater" shall include heaters used for frost protection for orchards, vineyards, truck crops, and field crops. The contrivance commonly known as a wind machine is not included.

[Intentionally left blank.]
